Excellent book for the US cookBy Charles KadishThis book not only contains excellent recipes, it clearly describes the the techniques used to prepare and cook Chinese food in general. The tastes of the recipes themselves are an interesting combination of the traditional and what we non-Chinese westerners are used to eating.0 of 1 people found the following review helpful. book reviewBy BarbaraMy husband had been looking for this book for a number of years. The recipes are set for individual servings and easy to understand. The book was a great price and shipped very promptly.0 of 1 people found the following review helpful.
