When we had the restaurant, it was so enjoyable to watch a greater community enjoy my mom's cooking. Thank you to everyone who graced our family with your compliments, friendship, and most of all, your love. If you can find a copy of this book, get it. I still use it with my family.2 of 2 people found the following review helpful. learned it from AnnaBy pattiFrom someone who actually took classes from Anna. Her recipes are easy to follow and come out exactly as you would expect. Making it yourself is so much better than 90% of "american chinese resturants". Its an easy meal once your food is prepped to cook it.. YUM!!4 of 4 people found the following review helpful. Best cookbook I ownBy A CustomerThis is the most clearly written and easily used Chinese cookbook for American use I own. The basic techniques section is great to know for use with any Chinese cooking and make the recipes easy to follow. Once you master the basic skills fine tuning the recipes to your individual taste is easy. This book is so great I have completely worn my copy out.
