It had an old Christmas sticker covering the price and an orange price sticker on it for much less than I paid. I could not use this as the gift I intended. Very disappointed. 0 of 0 people found the following review helpful. A Tea Party Flare By Customer My girl friend and myself started a traveling tea parties flare. We started with someone in our Sunday school class who had a stroke. She enjoyed the tea party so much we decided to treat other ladies in our class. We choose the ones who we thought would not be chosen. We have used some of your stories and cookies for a devotion. So far the tea parties have been a great success. Thank you for your insights. 2 of 2 people found the following review helpful. A lovely book for yourself or a friend By A Customer This book appealed to me on two levels, as I collect cookbooks and I'm a Sunday School teacher. Although it's meant for adults to share their faith with others, I found that it gave me wonderful ways to do something new and different in my Sunday School classes.
