Colette Peters : Colette's Christmas/Cakes, Cookies, Pies and Other Edible Art from the Author of Colette's Cakes before purchasing it in order to gage whether or not it would be worth my time, and all praised Colette's Christmas/Cakes, Cookies, Pies and Other Edible Art from the Author of Colette's Cakes:

0 of 0 people found the following review helpful. Two StarsBy Giorgio CordaToo much emphasis on complex decoration and little on cake recipes.0 of 0 people found the following review helpful. They are beautiful, but not feasible for an amateur cake-decorator like ...By Rebecca Wade-EllisonI bought this book for my 4-year-old granddaughter, since she is fascinated with cookbooks and baking. She loves "reading" the book. The designs are not any that I would ever attempt (with the exception of many one or two). They are beautiful, but not feasible for an amateur cake-decorator like myself.0 of 0 people found the following review helpful. Extraordinary!By MichelleI gave this book 5 stars for many reasons such as great packaging, quickly shipped, the book was in great condition and the book it self had beautiful pictures and step by step instructions to creating beautiful art work. Amazing recipes with great directions and the results are always beautiful. I loved the book!

A collection of recipes for the festive season, aimed at bakers of all levels. The book contains a variety of projects

including chocolate Christmas tree ornaments, biscuit gift boxes and christmas wreaths, all with step-by-step instructions. It also contains a section for children.

From Library Journal Peters (Colette's Cakes , LJ 8/91) was a designer at Tiffany's before starting a successful cake-designing business in New York City, and her artistic talents are evident in the elaborate, often jewellike cookies, cakes, and ornaments and decorations in her new book. Decoration is the star in this collection of whimsical fantasies, from stunning stained glass cakes to a miniature Victorian greenhouse constructed of royal icing. There are some less complicated projects, and holiday bakers will be inspired by the cut-out cookies and gift ideas--but busy cooks would probably have to start now to complete some of these creations before next year's Christmas! For most baking collections. Copyright 1993 Reed Business Information, Inc. From Booklist From the creator of Colette's Cakes comes a splendid collection of Christmas confections, cookies, cakes, and other creations. Plenty of novel ideas appear beautifully illustrated on these pages, but most will be too difficult for the amateur, even though precise instructions are given for every item. There are a few, such as Christmas cookie boxes and edible ornaments, that the dilettante could attempt. A elegant treasury of treats. Denise Perry Donavin
