The cookbook section was my "baby." That's where I discovered the "Love Food" brand of cookbooks. This has an easy to understand, comprehensive information for anyone who is starting out. There's photographs for every single recipe and information for those who may have grown up eating a lot of mac'n'cheese and fish sticks. Great quality and great for a beginner.0 of 1 people found the following review helpful. DissappointingBy TSWarrenThis cook book looks nice on the outside, but that's where the value ends.It's not definitive in any way, the recipes are unoriginal, uncreative and generally dull.
