I was looking for more of an idea book. The first few pages are about the history of cookie cutters???... I was sold on getting it when I read that someone said there was a "must-have" color chart. Color schemes are obvious and just categorized as Primary, Boy/Girl/etc. Definitely have better books than this and wouldn't recommend it for someone looking for ideas or how-to's for cookie decorating. Very much a beginners book. Nothing necessary. Don't buy it new, try to find it in a book store check it out, see if it's for you.1 of 1 people found the following review helpful.
