**Dolores Kostelni : Cookies By the Dozen: Over 75 Irresistible Recipes for Just a Dozen cookies Each** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cookies By the Dozen: Over 75 Irresistible Recipes for Just a Dozen cookies Each:

1 of 2 people found the following review helpful. COOKIES BY THE DOZEN IS A GREAT IDEA! By A Customer Apparently Cookies by the Dozen is out of print and this is too bad for all of us who want to make homemade cookies but have neither the time nor money to prepare 50 or more from a standard recipe. This concept is a great idea for baby boomers, grandmothers who have their grandchildren over to make cookies for dessert or a snack, for couples, for small families, for everyone who desires the pleasures, flavors, and aromas associated with making homemade cookies and who do not have all day to devote to doing it. This book is so wonderful, the recipes so easy and practical that I would hope Warner Books would get in touch with the author to add more recipes and they would reissue it--and soon. 3 of 3 people found the following review helpful. A Gem By Nop I have owned this book for a long time, and I go back to it again and again. It is wonderful to be able to try so many recipes without then having 100 cookies. It is a perfect book for making a cookie platter--you can make many kinds and fit them on one big plate! The best things about the book are that there are a wide variety of recipes and that all of them are fabulous. Her chocolate chip cookie recipe is the best in the world. 2 of 2 people found the following review helpful. Please Help to Get this book REPRINTED! By susan rozan I attended a book signing and tasting at "The Festival of the Book" in

Charlottesville, Va on Sat. 3/22/03. I met Delores Kostelni and tasted 5 of her cookies. They were fabulous and I'd love to add this book to my collection. I enjoy baking but don't usually have the time to make 4-5 dozen. Making a dozen would be more practical and more enjoyable. Let's try to help to get this book reprinted for this lovely lady!

Perfect for desserts, snacks or gifts, for a busy mom or a single person with a sweet tooth, this cookbook includes recipes for old favorites such as chocolate chip and oatmeal raisin as well as brownies, coconut angels, lemon shortbread, bar cookies and more--all in the useful, time-saving quantity of 12 per batch.

From Publishers Weekly Usually, it's a baker's dozen that Kostelni's scaled-down recipes yield. No matter the number, the results are likely to please. Old favorites like All-American Chewy Chocolate Chip Cookies and Lemon Crowned Shortbread (aka Lemon Squares) join such fresh approaches as Potato Chip Cookies, Fruit Moons (filled with fresh fruit) and New Zealand Madeleines (with jelly and coconut). The recipes are direct and generally simple; there's a generous choice of unbaked cookies, good for when helping hands are small (or impatient). The concept of fixing only a third to a quarter of the usual yield will surely appeal to home bakers with small families and not a lot of time, to those who try to limit temptation and to others who crave just a small taste of a freshly made sweet treat. Kostelni, a reliable guide who owns two Virginia cooking schools, is on to a good thing here. Copyright 1995 Reed Business Information, Inc. Standard cookie recipes yield far too many for individuals or small families of two or three: now enjoy a cookie book which provides recipes for just a dozen cookies each. These adjusted recipes will prove much easier to use than the standard cookie cookbook. -- Midwest Book
