Caterina Hosoi : Cooking Classics: Japan before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cooking Classics: Japan:

2 of 2 people found the following review helpful. Unreadable on the Kindle HD and KindleBy CustomerI ordered this book and was greeted with very clear and appetizing photos. The problem with the book, it is not readable, because the photos overlap the printed recipes and listing of ingredients. When you go to each section, you cannot select the link to the recipe, because half the line of text is not visible and the link is covering the supposed readable text. If this was only a picture book, I would give the rating a high mark, but I purchased the book for the recipes, which cannot be read. Sorry I cannot rate this book with higher points, but if the recipes cannot be viewed, then the purpose of the cookbook is worthless. I will check back later to see if the content has been corrected, at that time, I will reconsider my purchase. 0 of 2 people found the following review helpful. BADBy W. ShiNow stop ripping off people. There was a different sushi guide that is only \$3.00. This is 12 bucks! Way too expensive. DO NOT GET THIS. Plus, this should

be kindle unlimited because the other ones are. You stink!
