**Vicky Bhogal : Cooking Like Mummyji: Real British Food from the Family Home** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cooking Like Mummyji: Real British Food from the Family Home:

Cooking Like Mummyji was first published to great acclaim in 2003 and garnered thousands of loyal fans, but has been unavailable for almost 10 years. This bestseller won the Jeremy Round Award for Best First Book at the Guild of Food Writers Awards and was short-listed for Best Book at the Glenfiddich Awards. Now back in a fully revised, stunningly redesigned edition with newly commissioned photography the author reveals in over 100 recipes, which are spoonfuls of her upbringing, real, authentic, traditional Punjabi home cooking, as cooked by families in British homes, as opposed to the food in Indian restaurants which was invented for the Western palate. As Vicky says, "I have often

thought it such a shame that the Western world is not been let in on the secret of real Indian home cooking, as though it is a sort of long-standing trick, our last remaining jewel. Our home food is much lighter, fresher, healthier and fragrant, with a vibrant breadth of flavors. A handful of simple spices, like musical notes, can be combined in many different ways to create beautiful melodies. This is a sharp, affectionate look at both the food and culture written by an insider and delivered with love.
