Peter Mazonson : Cooking Without A Kitchen before purchasing it in order to gage whether or not it would be worth my time, and all praised Cooking Without A Kitchen:

will ever try any of the recipes, but I was inspired by its ingenuity! Dr. Mazonson is witty and remarkably practical. I can only imagine the kind of out-of-the-box thinking that takes place in his home. Road-weary travelers will no doubt benefit from his experimentation, enjoying a warm meal and a good laugh. This book may not be so popular among hotel owners, however....1 of 1 people found the following review helpful. know a college student?By Stephanie Spencer RiveraMy dad gave me this book many years ago with a coffee pot, when I was moving off to college to live in the dorms. BEST GIFT! Though I now have a real kitchen and haven't used it in years I still recall some of my favorite recipies (and can make ramen better in a coffee pot than on a stove!)6 of 7 people found the following review helpful. A great little bookBy A CustomerThis book is great to have around if you are cooking for only one person and don't want a lot of dishes to clean up. Also good if you don't own any dishes! These are meals you can cook in your coffee maker. Since coffeemakers are available in most hotel and motel rooms now days, you can cook when you travel and save money. Also a good present for a high school graduate going away to college. A unique and good idea book!

A coffeemaker cookbook. Great for travelers, RV's, singles and college students. Unique untilzation of the appliance. Basket is used to steam food and carafe to heat items. Fun, quick, healthy and little clean up.

"If you buy only one book this year, let it be *Cooking Without A Kitchen: The Coffeemaker Cookbook*." -- Alex Bean, Boston Globe, January 22, 1999
