Ceri Olofson : Cool Layer Cakes: 50 Delicious and Amazing Layer Cakes to Bake and Decorate before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cool Layer Cakes: 50 Delicious and Amazing Layer Cakes to Bake and Decorate:

0 of 0 people found the following review helpful. Five Stars By Jessica Berry Really Neat book for people who want to get into layered cakes
3 of 4 people found the following review helpful. Five Stars By Silvia Valenzuela Delgado love it, has a great variety of designs and recipes, recommended!!
1 of 3 people found the following review helpful. but i didn't find anything useful or interesting
By yoonshin lee Nothing special...If you have no other baking books, maybe ok, but i didn't find anything useful or interesting.

The layer cake sits on the table looking simple enough, but then the first slice is cut and everyone gasps; each of the six layers is a different color of the rainbow! Nothing is a bigger crowd pleaser than a unique layer cake. And although a finished cake can look sophisticated and complex, creating it may be easier than you think. In Cool Layer Cakes, professional cake designer Ceri Olofson provides more than 50 amazing layer cake projects that will inspire

bakers of all levels to take their creations to new heights! Readers will find: Advice on gathering essential tools, equipment, and ingredients Core recipes for the best cakes and frosting for layering Basic sugar craft and decorating techniques Insider tricks for creating a professional finish With names like Sunset Fade, Flower Meadow, Pearl Cascade, and Sprinkle Explosion, the projects in *Cool Layer Cakes* are guaranteed to please. Gorgeous, full-color photos of each cake, along with illustrated step-by-step instructions.

“Wow! *Cool* doesn’t even begin to describe this enchanting book of sheer decadence. In this tome, one will find an unexpected treasure trove of information and joy. Author Ceri Olofson has imparted a wealth of knowledge into this book, so that nearly anyone, from the most inexperienced novice (such as myself) to a highly skilled expert can learn to build a masterpiece.”
