Wonderful!By NikThis book by Copeland Marks has brought new life into me and my kitchen. Having made some of the recipes with his directions, utilizing some of his alternate suggestions, I found that I can enjoy some very great foods from the other side of the world. I'm very pleased I made the purchase. Enjoy!11 of 11 people found the following review helpful. A great cook, and a great human beingBy A CustomerAll of us who knew Cope were delighted by his dry humor and his authentic cooking. His passing leaves a void which none can fill, as he was truly one of a kind.For those of you who didn't know Cope : the recipes are TRULY easy to reproduce at home, and I'm not a particularly experienced chef. Besides, the recipes are authentic, and have little to do with the standard fare you'll encounter in restaurants. Cope learned from ordinary great cooks, and had a knack for passing on the spirit of the dish.Rest in peace, Copeland Marks. I'll always miss you.
