Having experienced authentic jiaozi firsthand while living in China, the author has taken them to new, transcendent heights. From sweet to savory, eastern to western, there's a flavor and combination for everyone in this book. All the instructions were clearly and concisely written. I also loved Ms.

Roberts' "from scratch method." All I had to do to prepare the dumplings that I chose was use basic ingredients that I had around the house. I didn't have to run out anywhere and search for dumpling wrappers. For a dumpling lover like me, you think you have died and gone to heaven. It's difficult to find a substantial dumpling book and I am so pleased that I found this one. There are so many dumpling ideas that just never would have occurred to me, such as the Key Lime dumplings and S'mores dumplings, but they're genius! I highly recommend this book! 0 of 0 people found the following review helpful. Super cute cookbook! By Leigh Anderson I really enjoyed this cookbook. The recipes are fun and easy. The images and little icons throughout really show that the author put a lot of love into this book. Highly recommend!! 0 of 0 people found the following review helpful. Three Stars By K Lyon Not as exciting as I was hoping but not bad.
