Stephanie Crookston : Creative Cakes before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Cakes:

0 of 0 people found the following review helpful. Creative bakingBy Pamela J ParizoThis book has been around for awhile, but it hassome basic recipes that can be used to produceoriginal, artful cakes. I had this book before, andenjoy adding it again to my cookbook library.3 of 3 people found the following review helpful. Excellent!By WotyI bought this book several years ago, and I have been very happy with it. This book is worth buying for story of Stephanie Crookston's cake business alone; her passionate creativity is delightful to read about. The book also easy recepies that produce great cakes and frosting, instructions for 3d cake sculptures, and lots of instructive theory about inventing cakes.This book is suitable for use by adults and older children.

This personalized approach to cake art demonstrates how to sculpt regular sheet or round cakes into wonderfully imaginative forms to fit any personality or occasion, including tips on icing, lettering, and pattern-making.
