**Rosalinde Mowe : Culinaria Southeast Asia: A Journey Through Singapore, Malaysia and Indonesia** before purchasing it in order to gage whether or not it would be worth my time, and all praised Culinaria Southeast Asia: A Journey Through Singapore, Malaysia and Indonesia:

2 of 2 people found the following review helpful. The whole Culinaria series is greatBy David McAllisterThe Southeast Asia volume in the Culinaria series is as terrific as all the others. Not just recipes, but really the story of the tradition, the production of the ingredients, and the preparation of national dishes. My favorite is the Hungary volume, but each one is fascinating on its own. Many other cookbooks have marvelous photographs, but in this series they show food as experienced by the people of the country. Some ingredients come from just a single place, and how they are made is explained in very charming style. If you love cooking because of its traditional and cultural significance, these can't be beat. The buyer should be aware that the countries covered are limited to Singapore, Malaysia,

Indonesia -- and do not include Thailand or Vietnam. 1 of 1 people found the following review helpful. Wish there was one book for every country. By Gary Sadly this line of cookbooks is mostly out of print. I recommend starting with the ones they reprinted a few years back but all of them are very well written and laid out. I have been cooking professionally for over ten years and often when reading these books I learn how ingredients got there start or other interesting facts. The photography is gorgeous in this book especially, I love the Chinese New Year photos! 0 of 0 people found the following review helpful. A must have. By Ariel Layug Great book with lots of information about the cuisines of Singapore, Malaysia, and Indonesia. The recipes I've followed so far taste good and quite authentic. I would have given it 5 stars if the print quality of the photos was better.

Indonesia, Malaysia, Singapore--these names make one yearn for a distant, fascinatingly different culinary world. Without doubt, the Asian cuisine is centered around rice, which in its purity seems almost ascetic. On the other hand, the dishes that are served alongside the rice are characterized by a beguiling variety and are very often artistically refined. Soy and tofu, herbs and spices, fruits, coconut, bean sprouts, manioc, yam, and sweet potato are just some of the ingredients used in Southeast Asian cuisine
