**Elinor Klivans : Cupcake Kit: Recipes, Liners, and Decorating Tools for Making the Best Cupcakes!** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cupcake Kit: Recipes, Liners, and Decorating Tools for Making the Best Cupcakes!:

8 of 8 people found the following review helpful. nice and cute By nazreeni loved these cute cupcake liners though am not sure about the recipes yet. But what I was disappointed was once the cakes are baked in these cups the colour and the design in the cups become very transparent and it does not keep to its original colour as we see before baking. Although the cupcake liners are very colourful before baking it is not so once it's done. 1 of 1 people found the following review helpful. I was very disappointed.... By Alyssa Sorry to have to say this, but there are no large size

liners in this package. I put one of them in my jumbo size muffin pan and it does not fit at all. Way too small. This was nothing more than a waste of good money. If you want large size/jumbo liners for muffins and cupcakes, this is definitely not the product you want. 0 of 0 people found the following review helpful. Nice By Victoria Tedesco This cupcake kit is very nice. the liners design is adorable. the decorating tools are fine, maybe a little bit small. but if you want a complete kit you better purchase a professional one ;) The book is fine too, with basic recipes. the kind of ones that always work is perfect to beginners in this beautiful cupcake cooking world

This kit has everything needed for making and decorating dozens of festive cup-sized confections: 14 scrumptious recipes, 250 decorative cup liners in two sizes, a pastry bag, and an assortment of piping tips for creating one-of-a-kind masterpieces.
