Good decorating ideasBy CustomerI bought this book because the decorating ideas were really cute and they had really nice photos (always a plus in a cookbook of any kind.) I didn't really read through the book while I was in the bookstore, and if I did I would not have purchased it because the ingredients and instructions were not at all realistic. This book does provide inspiration for some interestingly decorated little cupcakes.

This title presents beautiful, luscious, indulgent cupcakes with lashings of buttercream or pretty decoration are all the rage. This great new cookbook provides an amazing range of over 120 brand new cupcakes and muffins: delicate teatime treats, decadent chocolate delights, fun and themed cakes for parties and occasions, sweet muffins and exciting savoury muffins - from Daisy Chain cupcakes to Peanut Butter muffins. In addition to the recipes is an invaluable and comprehensive section explaining essential ingredients, techniques, equipment, basic recipes and decorating. Also provided are handy templates to help with making decorative icing shapes.
