Parragon Books, Love Food Editors : Cupcakes (Simply) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cupcakes (Simply):

0 of 0 people found the following review helpful. Simply not cupcakesBy MGSo far, my daughter has tried two of the recipes. She followed the exact directions for both (I was with her), and the cupcakes turned out very dense and not moist at all. They don't resemble cupcakes; they're very hard. What a disappointment.0 of 0 people found the following review helpful. and I was so surprised by the bad reviews! I've tried two of the recipes so ...By Kellie WolkeI actually looked this up on to send my friend a link, and I was so surprised by the bad reviews! I've tried two of the recipes so far (vanilla frosted and chocolate frosted), and they came out AMAZINGLY. There's a big variety of cupcakes and muffins in the book, and I'm really looking forward to trying the rest now.The absolute only thing I had to change in the recipes was baking time; my cupcakes always took much less time to bake. But, that could just be my oven. For the price, I totally recommend the book.0 of 0 people found the following review helpful. Incorrect RecipesBy N. T.I could possibly get past the MANY grammatical errors and typos, but I can't get past the grossly

incorrect ingredient amounts. I'd say 85% of the recipes call for amounts of flour so small that you'd be hard pressed to make anything other than a pile of mush, let alone a cupcake. I'm guess they are typing mistakes, but for people who don't know any better, they wouldn't catch the error. Lovely pictures, terrible recipes.

With Simply Cupcakes, baking cupcakes has never been easier! Each recipe is beautifully photographed, with simple step-by-step instructions to make baking as easy as can be. Ideal for any party or holiday occasion, cupcakes never go out of style. For more simple guides to cooking, please see the rest of our Simply series.
