"Cupcakes" truly delectable creations for every day.By Etta BreaultI am extremely pleased with the purchase of this book, "Cupcakes". The receipes look delicious and there are instructions on decorating the cupcakes. The only drawback is obtaining some of

the ingredients. Since this was written in England, we don't have some of the ingredients and there are no substitutions. I believe I would have to send for some of the ingredients to specialized shops. I am glad I ordered it from ; their selection of books is amazing for every occasion.32 of 39 people found the following review helpful. Terrific!!!!By Manuel E. It has really easy recipes and the way to decorate them is beautiful. If you want to taste new recipes this is the book for you.
