AN AWESOME BOOK!By TyferI have about 300 cookbooks from many well-known and not so well-known authors, and by far this is the best book I've ever bought! All recipes are very easy, with simple ingredients that we all have at home. As I live in Mexico, sometimes I can't find certain mixes that the cookbooks from the USA request for, or they are too expensive, so that this book with recipes made from scratch is excellent. You don't have to be an expert baker to make them. I always try to buy books with pictures because I like to see how does the final product will look like, but believe me, this book is so good that you won't need any picture at all! (It doesn't have a single picture)Instructions are very easy, it has tips, advices,sizes of baking pans, kind of pans, etc. Don't think that as it is a very old book, recipes are bad, no way! they are great! Buy it you won't be dissappointed.!3 of 3 people found the following review helpful. Best baking book ever!By GabyI have many baking

books but this is the best. There are no pictures but the directions are clear and easy to understand. This book is also very good for people who love to bake but have limited knowledge of English. Everthing I have baked so far is VERY GOOD!!! The book is well worth the money. My mom loves it too. We agree with other reviewers that its very well writen therefore, it does not need any pictures! I am sure you will love the book as much as we do.1 of 1 people found the following review helpful. it has some really great combinations in it for mixing up desserts that areBy gloria obarskyI use this book a lot,it has some really great combinations in it for mixing up desserts that are different

More than 500 outstanding cakes, breads, muffins, biscuits, and strudels to delight family and friends. The only cookbook of its kind, devoted entirely to extravagant cakes and breads that need only to be stirred and baked. Includes great "conversation" dinner breads, amazing cakes and tortes, muffins, biscuits, and scones.
